

Serial Numbers With Description of WALTHAM WATCH MOVEMENTS

The information given in the following pages is compiled for the convenience and help of your **WATCH MATERIAL DEPARTMENT** when it is necessary for you to select material for a **WALTHAM** watch and the serial number only is given to work from.

To economize space and to keep the list from being too voluminous we have occasionally used a single grade name, to represent a group that used practically all of the same material, except possibly the jewels. The trade name, therefore, may be different on a movement in a particular group of numbers, but the information given in that group will assist you in the selection of proper material.

Further information that may be needed will be promptly furnished on request addressed to the

MATERIAL DEPARTMENT,
WALTHAM WATCH COMPANY,
Waltham, Massachusetts

Waltham, Massachusetts
September, 1954.

Note — See last page for special information.
